Library project
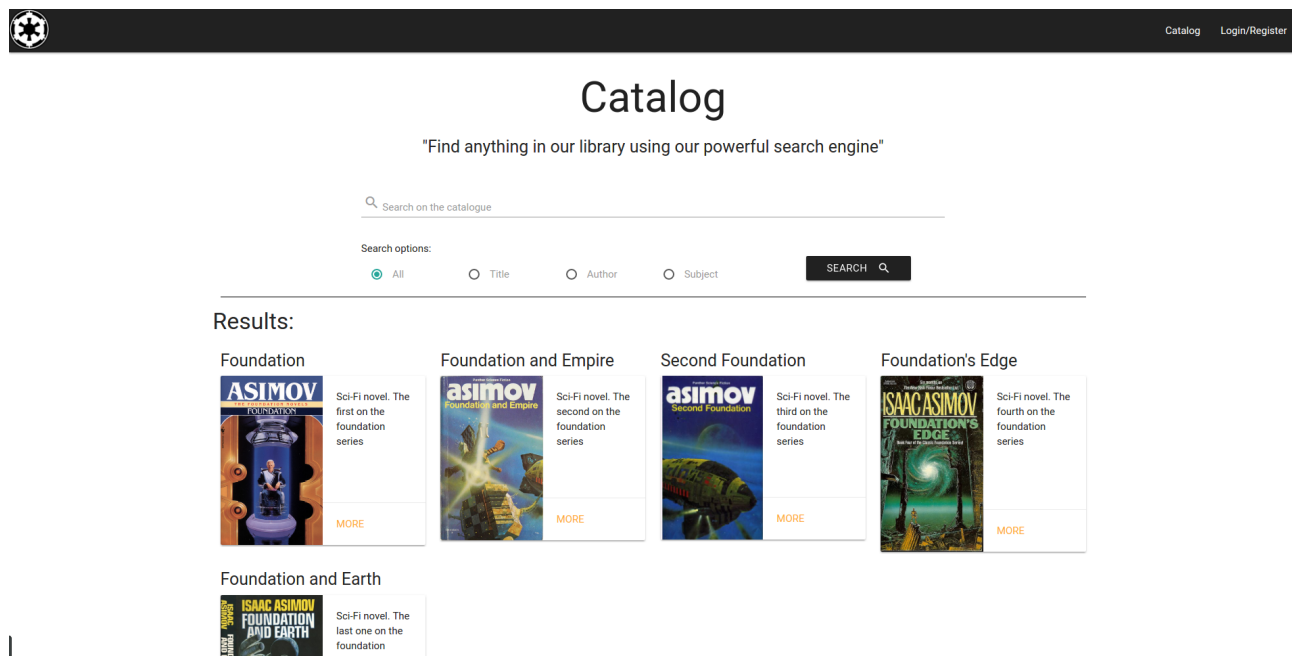

# Home page

On the home page you can find these utilities:

- On the navigation bar there are links to acces the catalog and a link to login/register.

- Just below there's a search bar to search on the catalog.

- On the center of the page we find New arrivals and Most populars elements.

# Catalog page

On the catalog page you can search any element on the repository by using the search bar. There are for options for the search: search by title, search by author, search by subject or search without filters (all).

Below the search bar the results of the search will appear.

## Prelude to foundation

Cover

[ BOOK ]

**Author:** Isaac Asimov

**Year:** 1988

**ISBN:** 0385233132

**Summary:** In the year 12,020 G.E., Hari Se of Trantor and begins to develop his theo predicts the rise of a power greater than t

Once inside the book information page you can click the book button that will take you to the booking page for that book.

Here you select a valid date, check the return date and click on the book button to confirm.

# Library Management

On this page the librarian or administrator of the site can register users.

On the user management tab the librarian/admin can edit or delete a user or view all the bookings from that user and it's status.

On the add book tab the librarian/admin can add books to the library, by selecting the Catalog field the book will be available for the users or not.
